

ANNOUNCING: IPLE's 22ND INTERNATIONAL SEMINAR

“Productive Learning as international learning – activity based learning in another country” from 4th to 8th of October, 2010, in Créteil(France) in cooperation with the Académie Créteil

The Berlin Institute for Productive Learning in Europe (IPLE), invites you to participate in IPLE's 22nd International Seminar on “Productive Learning as international learning – activity based learning in another country”, which will be held, in France, in cooperation with l'Académie Créteil from October 4 to 8, 2010, in Champigny (Val de Marne, France). Champigny is a small town in the east of Grand-Paris, 20 minutes far from the centre of Paris, by metro/RER.

The IPLE and the Académie Créteil (the regional school authority) are building up a future cooperation within the International Network of Productive Learning Projects and Schools (INEPS) (see: www.iple.de and www.ineps.org). We thank very much monsieur le Recteur de l'Académie de Créteil for being the host of IPLE's 22nd International Seminar. The seminar takes place at their “Centre de ressources documentaires et pédagogiques” which is situated on the beautiful banks of the river Marne (www.crdp.ac-creteil.fr/cddp94).

The Seminar is addressed to European teachers/educators, career counselors, social workers etc., working in the field of general education with young people in school and outside school, especially those who are in conflict with traditional learning and school and/or who are at risk to drop out from the educational system. For developing their education they may need other ways and forms of learning. Productive Learning is one of those which has proved its effectiveness for more than 20 years. So called “bad learners” who, in the setting of regular classes, were not successful, might achieve graduation in the frame of Productive Learning.

Contacts If you need more information or if you have organizational questions please feel free to contact Viola Paeschke from IPLE: viola.paeschke@iple.de; phone: +49 30 21792 153

3 VOICES FROM SWEDEN

My vocational training. My name is **Shalaw** and I am 20 years old. I go to a school called YFC. Two days a week I study Swedish and English in school. Three days a week I practice at a printing house. I start working at 7 am and finish at 2 pm. Sometimes I work extra a couple of hours. Most of the times I fold. me and my bosses take care of the material that comes twice a week. Then when the material arrives we'll take it to the right machine so it is not in the aisle. My boss has promised me that I can work there in summer, and I hope it can lead to an employment. You don't have to be trained to do this job but if you work with a machine, you must be trained.

My vocational training. Hello! My name is **Natalie Lorentsson Sjöberg** and I work in a restaurant, called Bommen in Gothenburg. I'm a waitress and I serve people. I think it's funny and good for me because I like to talk with people. In the future I would like to work in a restaurant and serve people and maybe work in the kitchen. I like to bake cakes. It's funny and I meet other people. I go in a class that go to school one day and work four days of the week. It's very good for us because we learn very much from this. I work in the holidays.

My vocational training. Hello. My name is **Daniel** and I work in a restaurant. The restaurant is in a golf club. The name of the restaurant is Albatross. And I work in the kitchen with the waiters. In the future I would like to work in a restaurant in another country. This is a very funny job because if you work in a kitchen you can meet many other people and friends. In the summer there come so many people and this is very hard work but you can get real good cash.
